

Bike Helmets are REQUIRED for those under 16 and recommended for ALL!

This law (RSA 265:144) is effective January 1, 2006

Why? Bicycle crashes are a major cause of brain injuries. Helmets prevent 85% of these injuries and 75% of the deaths. Helmets should be buckled and worn properly to protect your brain.

Why? Brain injuries cause life-long problems and huge medical bills. Life will never be the same!

Why? Safe helmets can cost less than \$10. Look for a sticker from the Consumer Product Safety Commission (CPSC) to be sure that it meets safety standards.

This law is for kids riding bicycles on public ways. Helmets protect ALL heads. ANYONE riding a bike, skateboard, scooter or using skates anywhere should wear a helmet.

Helmets prevent BRAIN injuries!
