

Dear Parents:

This Health Care Notebook is a gift to you and your child from CHaD and the March of Dimes. We have designed this notebook to serve as a care plan for your child's medical needs, a place where you can organize all the paperwork and notes that involve your child's care. It is our goal that with this notebook communication and information sharing between caregiver and health care providers will be supported and children will receive the best care possible. Some categories in this notebook are for every family, and some will be specific to the condition of your child.

We hope you find the notebook useful and will take it with you when you have doctor appointments, school and community agency meetings – wherever and whenever you are addressing the needs of your child.

Molly's Place at the CHaD Family Center at DHMC in Lebanon will be glad to print additional inserts for your child's health care notebook to keep it up to date and useful for you. You can also find the forms on our website under the Information and Resources tab.

Please let us know if you have suggestions to make this Health Care Notebook even better for you and other families.

Thank you.

Sincerely,

Jennifer Williams
Care Management Assistant
